FAVORITO SPA Oak Nox

NOVO SPA Oak Mandel

ELEGANTO PRO+ Slate Natur

How can I create a uniform design through my kitchen, bathroom and living space?

Design³ is the answer!

A bit of peace and quiet - something many people want to enjoy at home, so they create spaces within their own four walls to which they can escape and insulate themselves from the stresses of everyday life. However, this trend poses a problem for interior designers, as not only are kitchens and living spaces increasingly becoming open plan, bedrooms and bathrooms are as well.

tilo is one of the first suppliers to offer a comprehensive range of vinyl floors that can also be installed in wet rooms.

This means the same design can now be used through the kitchen, bathroom and living space. We have selected the best-selling designs from our popular dry room range and restructured the flooring to make it suitable for wet rooms as well.

Our wet room flooring can be identified by this icon:

DESIGN³: SIMPLY THREE TIMES AS GOOD.

Now waterproof as well - enjoy all the benefits of designer flooring.

Tilo SPA rigid boards and Tilo PRO+ adhesive sheets are 100% waterproof.

- Design¹: **High-quality designer flooring** in wood and stone designs.
- Design²: **Waterproof SPA rigid boards** for wet rooms.
- Design³: **Waterproof PRO+ adhesive sheets** with an installation height of just 1.5 - 2 mm for wet rooms.

All our designer flooring is also TÜV-certified.

Design¹:

Vinyl floors

Multifaceted, impressive, elegant.

Whether it be deceptively real wood design or an elegant stone design: vinyl is unbelievably versatile. And you can continue enjoying its beauty for an especially long time, as tilo vinyl floors are able to withstand a great deal of stress and are incredibly long-lasting and easy to maintain. Perfect for all areas where resilience and aesthetics are required.

Product benefits:

- Floating flooring with integrated impact sound insulation
- Easy installation thanks to the tilo FIX installation system
- That famous perfect fit associated with the tilo installation profiles
- Stair and skirting board solutions – for an even more beautiful room

Design²:

Vinyl flooring SPA

Delve into a world of new possibilities.

Beautiful waterproof rigid boards for wet rooms in our 16 most popular vinyl designs.

Product benefits:

- 100% waterproof, ideal for use in wet rooms
- Can be installed as floating flooring or with full-spread gluing
- More than twice the connection strength of other soft-click sheets available on the market
- Standard market stability values for low expansion when exposed to heat or sunlight
- Easy installation due to simpleFIX click system
- That famous perfect fit associated with the tilo installation profiles
- Stair and skirting board solutions – for an even more beautiful room

Design³:

Vinyl flooring PRO+

So thin, strong and waterproof!

Our best-selling designs - now available as waterproof adhesive sheets with an installation height of just 1.5 - 2 mm. Ideal for refurbishment projects (when installed by a professional tradesman) and new builds.

Product benefits:

- Lowest possible installation height of just 1.5 - 2 mm
- 100% waterproof, ideal for wet rooms with full-spread gluing
- Standard market stability values for low expansion when exposed to heat or sunlight
- Stair and skirting board solutions - for an even more beautiful room

stairs & skirting boards

At tilo, our wet room designs also feature matching skirting boards and stair solutions - for harmonious room solutions with that special something.

You can now find all our DESIGN³ products in the tilo DESIGN catalogue.
